

SM 118S

演奏系列

DESCRIPTION

SM 118S is a high efficiency paraphrase sub-woofer with persistent dynamic. It is surely an ideal companion for the reinforcement system of band performance. It can also be used in other occasions such as, disco, theater, outdoor performance and vocal concert, which desire the effect of bass sound effect.

SM 118S can produce a desired bass for both traveling performance and stationary installment. It guarantees a stable performance in long-term operation. And the soft and punchy bass is nice to the ear. With its mini shape, SM 118S can be easily matched with other members of SM series to satisfy various demands of the user.

The low end unit consists of one 18" bass cone and one 4" coil support of aluminum band coated with copper. The low end has a sensitive response and offers a penetrating sound with a high efficiency.

FEATURES

- Paraphrase sub-woofer loudspeaker
- 18" speaker
- 1.75" compression driver with constant directivity horn
- 600 W power handling
- Highly intensity CLB enclosure.
