

HD668B

Superlux[®]

**Semi-Open Professional
Studio Standard Headphones**

The HD668B is a semi-open dynamic headphone whose sound quality meets the demands of even professional recording studios. The balanced and high definition sound of the HD-668B assures that a professional sound engineer can have full confidence when mixing down or during post production. Its patented sturdy headband structure provides long-lasting durability even in challenging conditions, yet its light weight and optimized mechanical pressure provides long-term wearing comfort. The HD668B comes equipped with 2 detachable straight cables: The short cable is 1 meter long for personal sound source on-the-move applications and the long cable is 3 meters long for professional monitoring applications. These cables can be connected together for even more distance if desired. Cable clip secures detachable cable from pulling out by incident.

HD668B

Superlux®

Professional Studio Standard Headphones_Semi-open

Features

1. Patented durable structure.
2. Comfortable, self-adjusting headband pads.
3. Comfortable, long-lasting ear pads.
4. Detachable, single side cable.
5. Cable clip included

Professional monitoring headphones.

High resolution drivers.

Precision tuned acoustic chamber.

Optimized headband pressure.

Light weight.

Frequency Response

Both the HD668B and DT990 have a similar frequency curve. The HD668B delivers a natural and excellently balanced sound, presenting the crystal clarity and high resolution demanded by professional users.

* FR charts shown above are test results determined by China Standard IEC318 ear simulation.
