

## SE108/SE108W

### MULTI-FUNCTIONAL PORTABLE SPEAKER

#### Description

SE108 overcomes the bulky characteristic of the traditional speakers and provides ultra portability. The backpack element of SE108W fully reflects its personality and the design concepts. The built-in wireless microphone system and Bluetooth technology will free your hands and provide easy connection with any devices without constraints of cables.

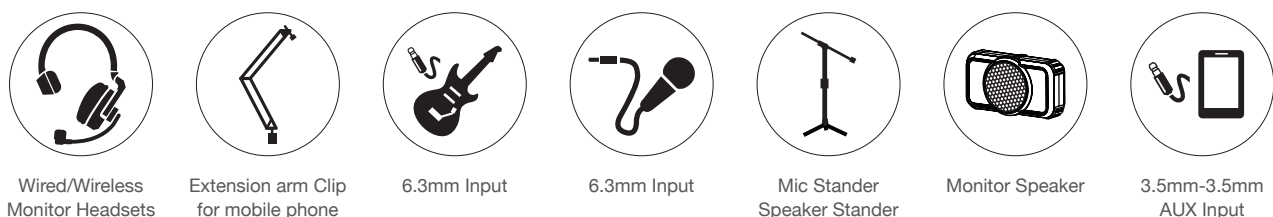

#### Features

- Light-weighted and easy portability. Backpack aesthetic design
- Easy to use and operate
- With headphone monitor output jack
- With two TRS jack inputs and separated volume control
- Built-in Bluetooth function. Bluetooth 4.1 technology for more convenient music input connection
- With REVERB function
- The two-stage hidden EQ can adjust the treble and bass sound quality perfectly
- Furnished with an U channel wireless microphone (only SE108W version)
- Battery use for more than 5 hours

#### Specifications

Driver	LF: 8" / HF: 1" compression driver
LF Power Amp	40W
Frequency Response (-10dB)	55-20kHz
Input Sensitivity	Mic: -38dBu / Line: 0dBu
Max. Peak SPL	110 dB SPL
Crossover	4k Hz
Input	6.3mm LINE IN & MIC, 3.5mm AUX IN
Impedance	MIC=1.65KΩ / LINE=22.5KΩ
Enclosure Material	PP
Output	Headphone out
RMS Output Power	40W/4Ω (@THD<1% at 1KHz)
Total Harmonic Distortion	≤0.3% @20-20,000Hz, +14 dBu
Charging Requirement	12V / 7.5AH (Charger included)
Dimensions (HxWxD)	441 x 330 x 262mm
NET Weight	10KG

#### SE108 Connection Devices

## Applications

The built-in wireless microphone and Bluetooth technology of the SE108 will free your hands and provide easy connection with your headphone or other devices without any constraints of cables.
