Table stand

FUNCTION DESCRIPTION

A USB Power Indicator

When it is lit up, it means the USB connection is done and E205UMKII get the power from USB interface.

B Headphone Volume Control

Pop-out level control to adjust the overall volume of the Headphone output.

C Headphone Output Jack

1/8-inch (3.5mm) stereo jack for connecting headphones or studio monitors.

D USB connector

E205UMKII involves a USB B-type connector, it is allowed to connect to laptop with USB A-type jack.

INSTALLATION

ON A STAND

By using a microphone stand, the E205UMKII can be mounted on it for recording.

ON A TABLE

Through optional table stand HM6, You may put the E205UMKII on a table and do recording.

CONNECTIONS USB CONNECTOR

A separated 3-meter cable with USB A-type connector allowed to be connected to a computer with USB port.

***Notice:** The included USB cable is for laptop with A-type connector. For computer with another connector type (ex. C-type), please use connector adaptor.

QUICK START

1 You can position the E205UMKII on an optional stand by using included accessories.

2 Be sure to position the side of grille net to the sound source and keep the Superlux logo and LED indicator face the direction of sound source.

3 Plug the B type connector of the included USB cable into the USB socket on the bottom of the E205UMKII.

4 Now, plug the other end of the USB cable into an available powered USB port on your computer.

***Notice:** Be sure to check the USB audio device driver setup for Windows and Mac OS to confirm your computer has recognized the E205UMKII.

5 Next, launch your DAW, turn down the main output level and select the E205UMKII for the input.

6 Set up a mono record track in your DAW.

7 Now, setup the level of the E205UMKII and there are few ways to do this depending on your computer system. You can set the microphone's input level in the Sound playback in Windows or in the Sound dialog box in the System Preferences if you are using the MAC OS.

8 Set level of the microphone by raising the Input level control in your DAW or system to about half way up.

9 Next, put on your headphones that is connected to the headphone output of E205UMKII, position the E205UMKII to the sound source then adjust the volume control until you reach a comfortable listening level.

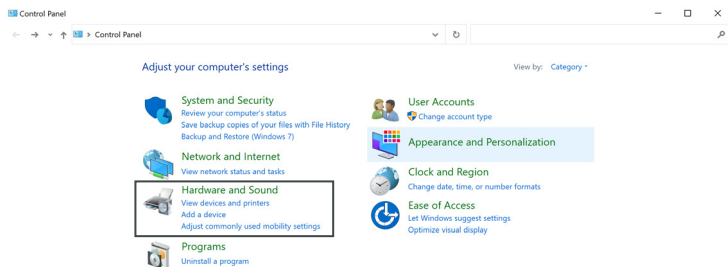

Now, follow the instructions of your DAW software to enable the track for recording and you're ready to record.

***Notice:** If the microphone level of E205UMKII are too loud or not enough, please check your DAW software or refer to Troubleshooting page in this manual to adjust the level in Windows and Mac computer system.

USB AUDIO EQUIPMENT DRIVER

If you encounter a problem, please check whether driver has been setup successfully.
