

PRA-318S / L

Omni-directional Dynamic Microphones for Broadcasting and Interviewing

Description

PRA-318S, PRA-318L are specially designed microphones to be mounted on video camera and to be hand-held for the reinforcement in recording and broadcasting.

Features

- Frequency response effective to enhance the clarity and crispness in speech reinforcement
- Omni-directional dynamic microphone, reducing the proximity effect in close picking-up to the minimum
- Solid, but slim and light zinc alloy die-casting body, suitable for the professionals
- Unique wind shield making it suitable to be used outdoors

Specifications

- Type: Dynamic
- Polar pattern: Omni-directional
- Frequency response: 50~15000Hz
- Sensitivity: -74dbV/pa (0.2mv/pa)
- Rated impedance: 500Ω
- Dimension: PRA-318S Φ34(Max.)x180mm;
PRA-318L Φ34(Max.)x230mm
- Net weight: PRA-318S 110g; PRA-318L 140g
