

HD660

PROFESSIONAL MONITORING HEADPHONES

Description

The HD660 is a closed-back dynamic headphone for the most demanding professionals. The accurate sound profile and comfortable headband make the HD660 the perfect monitoring headphone for recording studios, post production or broadcasting applications.

With a carefully tailored frequency response, the HD660 offers an excellent clarity of sound with a natural and balanced character. Soft earpads and adjustable, sliding earpieces, together with a single-sided connecting cable, ensure listening comfort during long term use.

Features

- Natural and well-balanced sound profile
- Ultra-detailed high and mid-range reproduction
- Durable headband construction with optimized pressure
- Single sided cable

Included

Threaded 1/4" gold-plated stereo adapter

Carrying case
