

HD667

PROFESSIONAL DRUMMER HEADPHONES

Description

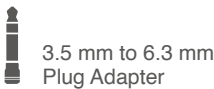

HD667 is a high-quality monitoring headphone designed specifically for drummers. With its simple yet refined appearance, it perfectly embodies the drummer's understated yet rebellious personality. Every detail reflects a professional standard and unique style. Equipped with a 40mm driver, it captures every sound detail with precision, whether it's deep bass or crisp highs, delivering a clean and clear sound quality. As the second-generation professional drummer headphone from Superlux, the HD667 features an upgraded sponge headband design, offering an even more comfortable wearing experience. Whether used in the studio or on stage for extended periods, it effectively reduces fatigue, providing continuous comfort.

The HD667 also comes with a 2-meter detachable cable, featuring a locking mechanism to ensure a stable connection and prevent accidental disconnections. The cable includes an in-line volume control, allowing you to adjust the volume easily at any time without relying on external devices, enhancing the convenience and freedom of your listening experience. Additionally, the headphones come with a soft velvet pouch, offering protection when not in use, preventing scratches and damage, and ensuring the headphones always remain in like-new condition, providing a more refined user experience.

Features

- Designed for Drummers: Captures every drum sound detail with clarity and precision, providing clean and clear audio, ideal for professional monitoring needs.
- 40 mm Driver: Delivers powerful bass and crisp highs, ensuring every detail of the sound is perfectly reproduced.
- Comfortable Sponge Headband: The upgraded sponge headband design ensures pressure-free comfort, making it suitable for long-term use.
- Stable Detachable Cable: Equipped with a 2-meter detachable cable and locking mechanism, ensuring a stable connection and preventing accidental disconnections.
- Convenient Volume Control: The cable features an in-line volume control, allowing you to adjust the volume with ease, offering simple and convenient operation.
- Soft Velvet Storage Pouch: Includes a soft velvet pouch to protect the headphones from scratches and damage, keeping them in like-new condition and easy to carry and store.
