# HD662 Series

## Closed-back Professional Monitor Headphones

封閉式專業監聽耳機

HD662系列含有三種不同的音色：HD662深沉而豐富的低頻響應、HD662F真實的低頻表現、HD662B力度飽滿的低音，展現低音的衝擊力道。三支耳機的音場可比擬為：HD662是與演唱者一起在舞台上共舞、HD662F如同在前排的貴賓席、HD662B就像是置身在音樂廳中一般具有景深與空間感。這三支耳機不僅各具特色，而且重現聲音的清晰、準確及平衡的音色，讓您無論在監聽、混音、聆聽MP3或享受音樂時，都可以期待HD662系列為你帶來豐富的音樂性；高品質耳罩加上質輕自動調整的頭帶結構，則給你帶來無比的舒適感受。

The HD662 series offer three distinctive sound profiles, each with its own character: The HD662 features a deep and rich bass, the HD662F has a true bass response, and the HD662B has a powerful bass punch. As for the sound image presented by these headphones, the HD662 gives you the feeling of actually being on stage with the artists while the HD662F makes you feel as if you sitting on the front row and the HD662B puts you in the middle of the concert hall. These three headphones also deliver clarity, accurate and well-balance sound. The ergonomically-designed vinyl ear pieces combined with light weight and self-adjusting headband of these headphones make them very comfortable. Whether you are monitoring, tracking, mixing or just listening to your mp3 music, you can expect comfort and sonic accuracy from HD662 series headphones.
