

HD572SP MUSIC APPRECIATION HEADPHONES

Description

HD572SP is the new light-weight upgraded version of the HD572. Its improved drivers deliver a truly impressive sound quality as well as providing sufficient sound volume. The HD572SP features a more powerful bass punch, expressly designed to convey the power of drums, while the mid and high frequencies give high resolution and details.

Its supra-aural closed-back design provides excellent noise isolation, ensuring the HD572SP performs well in high noise environments, making it ideal for music aficionados everywhere.

Features

- Closed supra-aural, dynamic design.
- 30 mm drivers.
- Neodymium magnets.
- Detachable structure for single-ear monitoring.
- Soft cushioning on headband.
- High sound pressure level and high sound volume.

Specifications

Types	Dynamic, Supra-aural, Closed-back
Driver	Ø30 mm, Neodymium
Sensitivity	99 dB SPL (1 mW)
Frequency Response	20 – 20,000 Hz
Max. Input Power	200 mW
Rated Impedance	24 Ω (Copper-coated aluminium wire)
THD	≤ 0.25 % @ 1 kHz / 1 V
Earpads	Leatherette
Cables	1.5-meter
Connector	Gold-plated stereo mini plug
Finish	Black / Brown / Blue / White
Weight (w/o cable)	120 g (4.2 oz)

This information sheet contains important information for the safe use of the product. Read and follow the safety and handling instructions given here. Please keep this information sheet for future reference. If you pass on the product described overleaf, please enclose this information sheet.

Safety instructions

Intended use

This device is used for sound reproduction close to the ear in private. Any other use or use under the conditions excluded here is considered improper and can lead to personal injury or property damage. Neither the manufacturer nor the distributor is liable for damage resulting from improper use.

Choking hazard for children

 Make sure that plastic sleeves, packaging, etc. cannot get into the reach of babies and small children. Do not allow children to use electrical devices unsupervised. They could loosen parts of the product, then swallow them and choke on them!

Danger to life from distraction

 The use of earphones or headphones can distract your attention and reduce your perception. Ambient noises will at least be less audible. Never use the device as a participant in traffic or when operating machines.

Possible hearing damage

 The use of earphones or headphones can generate volume levels that can cause temporary or permanent hearing impairment. Do not continuously expose your ears to high volume levels. Stop using the device immediately if you notice ringing in the ears or hearing loss.

Place of operation

The device must not be used

- ▶ at particularly high temperatures or humidity
- ▶ in particularly dusty or polluted places
- ▶ in places where it can be exposed to moisture

General handling

To prevent damage, never use force when handling the product. Never immerse the product in liquids. Just wipe it with a clean, dry cloth. Never use liquid cleaners such as benzene, thinner, or flammable detergents to clean the product.

Disposal

Old devices

 Devices with this label are subject to the current EU directive on waste electrical and electronic equipment (WEEE directive) and may not be disposed of with household waste, but only via a suitable disposal company. Ask your local authority or your specialist dealer about your options for proper disposal.

Packagings

 Environmentally friendly materials have been selected for the packaging and are to be recycled. Do not just throw away plastic sleeves, packaging, etc., but recycle them. If necessary, note the instructions and labels on the packaging.
