D112C

DYNAMIC HAND MICROPHONE FOR HARP

Description

The D112 is a new Hi-Z blues harmonica microphone with unique curves to fit the hands when playing. Light structure and considerate designing. For the musicians of harmonica, it can produce the sound of harp of classic blues. Its tailored frequency and unique shape for handling make it an ideal candidate for the hand-held use of harmonica performance.

It has a level knob for the player to adjust the sound to a suitable level. Permanently attached cable with 1/4" output connector can directly plug into the guitar amplifier or other high impedance devices.

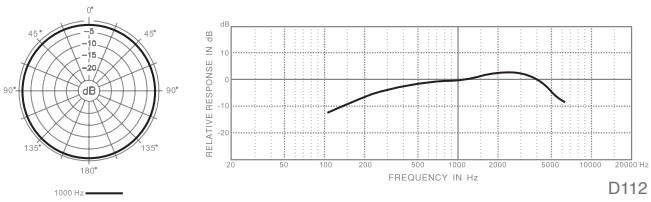

Features

- Hi-Z matched with harmonica can directly plug into the guitar amplifier.
- Warm and full sound.
- Body curves fit the hands when playing.
- 1/4" mm TS output connector.
- Permanent 6 mm × 6 m attached shield cable.
- Level knob for player to adjust suitable sound level, centre detent included.

Specifications

Type	Dynamic
