HD665

PROFESSIONAL STUDIO HEADPHONES

Description

With HD665's well-defined bass reproduction and clear mid-high sound profile, these professional studio monitoring headphones are perfect for drummers and bass players.

They provide great isolation and drastically reduce levels of external sound reaching a musician's ears, offering valuable protection from potential damage. Self-adjusting headband and foam cushions ensure great fit and maximum comfort. HD665 is great for recording and live situations or playing along with recorded music.

Features

- Well-defined bass reproduction and high resolution character.
- Large, high-performance 40 mm (1.6") drivers provide high sound pressure level and convincing sound.
- Advanced closed-back design ensures high noise reduction.
- Auto-adjustable headband and circumaural design for comfort during long work sessions.
